

Jesús Armando Gutiérrez Nery, Desarrollador Frontend

Frontend developer with experience in React, Angular, and TypeScript. I build accessible, maintainable, and scalable interfaces, with experience in remote collaboration with international teams and digital product development.

Experiencia laboral

Frontend Developer en IMSS, Ciudad de México

Ago 2024 — Sep 2025

SIRI – Real Estate Risk Identification System

- I implemented administrative menus, search filters, and Excel reports with unique keys to improve data accuracy and reliability.
- I developed interactive maps and statistical charts for clearer visualization of administrative information.

Technologies: Angular 12, Java, JPA, SQL.

SMNS – System for Dispensing Unsold Medications

- I designed a responsive and accessible login interface.
- I optimized application load times and overall performance.

Technologies: JavaScript, Angular 17, PrimeNG, Angular Material.

CYSAPR – Application Control System

- I analyzed and documented key functional requirements to facilitate system evolution.
- I developed custom components such as modal windows with editing capabilities.
- I integrated API consumption using TypeScript.

Technologies: Angular, Angular Material, PrimeNG, TypeScript.

Frontend Developer/ Software Engineer en EY GDS, Ciudad de México

Mar 2022 — Mar 2023

LYNX – Employee Project Management Application

- I refactored and optimized components using Fluent UI to improve scalability and maintainability.
- I resolved performance issues in critical modules.

Technologies: TypeScript, React, Fluent UI, Bootstrap 5, React-JSS.

TalentOps – Talent Data Management Platform

- I designed and developed web components with React and TypeScript.
- I implemented Redux for improved state management and API calls.

Technologies: TypeScript, React, Redux, Sass, CSS Modules.

Remote collaboration with teams in India and the United States in an international environment.

Frontend Developer / Software Engineer en Consorcio Jurídico S.A de C.V., Ciudad de México

Sep 2020 — Jun 2021

AGSI – Internal Request Management Application

- I designed the system's web and mobile interface.
- I developed key components and pages, ensuring visual and functional consistency.
- I replicated the web interface in Android Studio using Java.

Technologies: HTML5, CSS3, JavaScript, Bootstrap 5, Material Design, ASP.NET, SQL Server, Android Studio, Git.

Formación

Systems Engineering, Universidad San Carlos, Estado de México

Ago 2015 — Jul 2019
